COLLECTED FOREST TREE SEEDLINGS & SHRUBS

WOODS GROWN PLANTS

The stock offered below is not finished plants, but is woods grown, collected stock from the mountains and forests, suitable for transplanting. Woods grown or collected stock is not to be classed with nursery grown or cultivated plants. We seldom recommend Collected Stock, however many of our customers advise us that with Collected Stock they have obtained satisfactory results. The prices are certainly attractive.

Many of the varieties we offer in Collected Stock are items that frequently become short in Nursery Grown.
